

EDUCATION

Vasireddy Venkatadri Institute of Technology Bachelor of Technology - Artificial Intelligence and Data Science; GPA: 7.60	Guntur, India November 2021 - June 2025
MJPAPBCWREIS & Jr College Intermediate - MPC; Percentage: 95.3	Nizampatnam, India June 2019 - May 2021

SKILLS SUMMARY

- **Languages:** Python, SQL, Java, JavaScript, HTML, CSS
- **Frameworks:** Pandas, Numpy, Flask, Matplotlib, React
- **Tools:** Power BI, Excel, PowerPoint, Canva, MySQL, MongoDB
- **Platforms:** Jupyter Notebook, Visual Studio Code, GitHub, N8N
- **Technical Skills:** Data Analysis, Data Visualization, Machine Learning, API Integration
- **Soft Skills:** Excellent communication, Time Management, Strategic Planning

WORK EXPERIENCE

DATA SCIENCE INTERN INDO EURO SYNCHRONIZATION ◦ Developed comprehensive data analysis reports using Python, gaining hands-on experience in Data Analytics, Business Intelligence (BI), and Data Visualization through tools such as Pandas, NumPy and Matplotlib.	February 24- May 24
DATA SCIENCE INTERN OASIS INFOBYTE ◦ Developed an automated web scraping tool using Python and Selenium to extract job listings from targeted websites based on dynamic filters such as location, role, and experience level.	March 25 - April 25
DATA SCIENCE INTERN CODTECH IT SOLUTIONS ◦ Successfully completed a 3-month Data Science internship at Codtech IT Solutions generating data analysis reports and stock predicting machine learning model, demonstrating consistent participation and dedication to practical learning.	April 25 - July 25

PROJECTS

Legal Text Classification LINK ◦ Developed a Legal Text Classification app leveraging NLP models to automatically categorize legal case descriptions into predefined classes. ◦ Enabled seamless user input interface for legal practitioners and researchers to test classifications in real-time. ◦ Developed and utilized a pre-trained model pipeline (.pkl) for efficient inference without re-training, ensuring fast response and minimal compute load.	December 24- February 2025
Auction App – Online Real Time Auction Platform LINK ◦ Developed a full-featured online auction platform enabling users to bid, list items for sale, and manage active auctions in real-time. Collaborated with backend services to fetch, post, and update auction data through RESTful APIs. ◦ Implemented secure user authentication and authorization using modern web technologies to ensure data integrity and user account safety. ◦ Built an intuitive and responsive UI with modern frontend frameworks to deliver a smooth cross-device experience.	March 25- April 2025
AI SQL ASSISTANT USING LLM LINK ◦ Built a Streamlit - based data assistant that allows users to interact with structured datasets using natural language queries. ◦ Integrated AI-powered query generation to dynamically convert user prompts into SQL and fetch relevant insights from uploaded CSV/Excel files. ◦ Enabled support for various data sources, including local spreadsheets, and designed a user-friendly interface for data exploration. ◦ Implemented intelligent column and sheet recognition to automatically adapt queries based on file structure and content.	May 25- June 2025

CERTIFICATES

Google Advanced Data Analytics (Coursera) CERTIFICATE ◦ Mastered fundamentals of Python, Pandas, Data Analytics and Data Visualization. ◦ Successfully generated analytics reports for fictional case scenarios in order to get the certificate.	July 2024
SQL for Data Science (Great Learning) CERTIFICATE ◦ Learned about the fundamentals of SQL, Data Science. ◦ Mastered query generation, SQL functions, Joins.	September 2024
Introduction to Microsoft Excel (Coursera) CERTIFICATE ◦ Developed a comprehensive understanding of Microsoft Excel and its importance for Data Analytics. ◦ Introduced to diverse report generating techniques and visualization tools.	December 2024
